

greenlibraryproject

Dear Friend of our Library

Did you know that the plastic in each printer cartridge takes more than 1,000 years to decompose, or that 1.5 million cartridges go to land fills each month?

Our library is now participating in the Green Library Project, a program that reduces this incredible waste and earns money for our library. We now collect empty printer, fax, and copier cartridges as well as cell phones for recycling. Please feel free to bring these items to the library to be deposited in the Green Library Project collection box.

Also, your work place can help our library by recycling their used cartridges and cell phones. Green Library Project will pick up cartridges and cell phones from your business and the dollars will go to our Library. If this is of interest, please call 1.877.882.5032 or visit www.greenlibraryproject.com.

Thank you in advance for helping our library and our environment through this program.
